

Please do NOT allow the destruction or any lessening of Wisconsin's "No Call List" legislation. My request is based on a issue of quality of life and even the needs of our families. Frequently, we hear community leaders speak of how quality family time is proven to strengthen our society. They often point to the dinner table as being that place for life long bonding to be supported. Finally, dinner without solicitation has been realized in WI. and now the bankers don't like it. Nuts to them. I have never bought anything from a phone solicitor and doubt that I ever will.
